

Please keep K-Love on the air and do not replace it with a LPFM radio station! I have listened to K-Love along with my family and a large portion of the greater Phoenix community! It serves to keep residents informed of what is going on in the valley and is a way to hear about important information that directly impacts residents! If K-Love were replaced with an LPFM station, that would leave a significant hole in the radio stations that thousands of community members listen to. I am able to have this station on in my home and car and I don't have to worry about whether my family will hear harmful words or topics that are inappropriate for them to hear. The local community does not have another radio station that would replace K-Love if it is replaced by LPFM. There are several rock and roll, several country, several oldies stations, but there is only one radio station that caters to our listener's desires in a broadcast station. K-Love is an encouraging and uplifting radio station that needs to be available on FM radio to all the current listeners of the station. Please do not replace K-Love with an LPFM station!

Thank You for listening,
Rebecca Holt
